## DETAILED ACTION

### *Allowable Subject Matter*

Claims 32-36 and 38-51 are allowed.

The following is an examiner's statement of reasons for allowance:

A plasma surface treatment apparatus including a cooling section adapted for cooling a substrate supported on a susceptor and a heating device adapted for heating a product formed on the surface of the substrate; and

*a separating device adapted for separating the substrate from the susceptor prior to heating the product.*

Neither of the prior art of the record teaches or suggests a separating device adapted for separating a substrate from a susceptor prior to heating products formed on the surface of a substrate from a plasma reaction processing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
